

Querys

getAllMessages (allMessages)

```
query{
  allMessages{
    email,
    message,
    id,
    date
  }
}
```

```
{
  "data": {
    "allMessages": [
      {
        "email": "updateadol6@gmail.com",
        "message": "Message 16 de ejemplo updateado",
        "id": "16",
        "date": "8/11/2022, 11:25:49 AM"
      },
      {
        "email": "example17@gmail.com",
        "message": "Message 17 de ejemplo",
        "id": "17",
        "date": "8/11/2022, 12:04:24 AM"
      },
      {
        "email": null,
        "message": null,
        "id": "18",
        "date": "8/11/2022, 12:00:03 AM"
      }
    ]
  }
}
```

getMessage(message)

```
query{
  message(id: 17){
    email,
    message,
  }
}
```

```
{
  "data": {
    "message": {
      "email": "example17@gmail.com",
      "message": "Message 17 de ejemplo"
    }
  }
}
```

Mutations

saveMessage (addMessage)

```
mutation {  
  addMessage(  
    email: "newMessageGraphql@gmail.com",  
    message: "Message nuevo de ejemplo por graphql",  
  ) {  
    message,  
    id  
  }  
}
```

```
{  
  "data": {  
    "addMessage": {  
      "message": "Message nuevo de ejemplo por graphql",  
      "id": "30"  
    }  
  }  
}
```

updateMessage

```
mutation{  
  updateMessage(  
    id: 18,  
    data: {  
      email: "updateado18@gmail.com",  
      message: "Updateando el id 18 que era null",  
    }  
  ){  
    message,  
    id  
  }  
}
```

```
{  
  "data": {  
    "updateMessage": {  
      "message": "Updateando el id 18 que era null",  
      "id": "18"  
    }  
  }  
}
```

deleteMessage

```
mutation{
  deleteMessage(id: 17){
    email,
    message,
  }
}
```

```
{
  "data": {
    "deleteMessage": {
      "email": "example17@gmail.com",
      "message": "Message 17 de ejemplo"
    }
  }
}
```

```
# query{
#   allMessages{
#     email,
#     message,
#     id,
#     date
#   }
# }

# query{
#   message(id: 5){
#     email,
#     message,
#   }
# }

# mutation {
#   addMessage(
#     email: "example@gmail.com",
#     message: "Message de ejemplo por graphiql",
#   ) {
#     message,
#     id
#   }
# }
```

```
# mutation{
#   updateMessage(
