Querys

getAllProducts (allProducts)

```json
{
  "data": {
    "allProducts": [
      {
        "name": "graphql",
        "price": 70,
        "id": "4"
      },
      {
        "name": "Product 6",
        "price": 666,
        "id": "6"
      },
      {
        "name": "Product 6",
        "price": 666,
        "id": "7"
      },
      {
        "name": "updated product",
        "price": 222,
        "id": "25"
      },
      {
        "name": "last product",
        "price": 5423,
        "id": "26"
      },
      {
        "name": "last product rest",
        "price": 532,
        "id": "27"
      }
    ]
  }
}
```

```graphql
query{
  allProducts{
    name,
    price,
    id
  }
}
```

getProduct (product)

```graphql
query{
  product(id: 6){
    name,
    price
  }
}
```

```json
{
  "data": {
    "product": {
      "name": "Product 6",
      "price": 666
    }
  }
}
```

Mutations

saveProduct (addProduct)

```
mutation {
  addProduct(
    name: "new Product graphql",
    price: 3312,
    thumbnail: "https://example.png"
  ) {
    name,
    id
  }
}
```

```
{
  "data": {
    "addProduct": {
      "name": "new Product graphql",
      "id": "29"
    }
  }
}
```

updateProduct

```
mutation{
  updateProduct(
    id: 7,
    data: {
      name: "updated product 7",
      price: 777,
      thumbnail: "http://example.com"
    }
  ){
    name,
    id
  }
}
```

```
{
  "data": {
    "updateProduct": {
      "name": "updated product 7",
      "id": "7"
    }
  }
}
```

deleteProduct

```graphql
mutation{
  deleteProduct(id: 28){
    name,
    price
  }
}
```

```json
{
  "data": {
    "deleteProduct": {
      "name": "new Product graphql",
      "price": 3312
    }
  }
}
```

```graphql
# query{
#   allProducts{
#     name,
#     price,
#     id
#   }
# }

# query{
#  product(id: 4){
#     name,
#     price
#   }
# }

# mutation {
#  addProduct(
#    name: "new Product",
#    price: 33.12,
#    thumbnail: "https://example.png"
#  ) {
#   name,
#   id
#  }
# }
```

```
# mutation{
#   updateProduct(
#     id: 25,
#     data: {
#       name: "updated product",
#       price: 222,
#       thumbnail: "http://example.com"
#     }
#   ){
#     name,
#     id
#   }
# }

# mutation{
#   deleteProduct(id: 2){
#     name,
#     price
#   }
# }
```
